Explanation of the above Table.

In the table above it is to be understood that the word "*near*" and the character ☾ (conjunction) are synonymous, and mean that the two bodies are *nearest* each other at the time expressed, and that they are then on a line running from the North Pole through both bodies, and have the same *right ascension*. GR. ELON. means greatest elongation, or greatest apparent angular distance from the SUN. STATIONARY means that the planet is then without apparent motion east or west with respect to the Stars, and is about to move in a direction contrary to that it last had. The character ☍ indicates that the planet is opposite the Sun, or 180 deg., or a half circle, east of it, and rises when the Sun sets, and sets when he rises. When a planet is a quarter of a circle, or 90 deg. from the Sun, east or west, it is known by □.

PLANETARY CHARACTERS. — ☿ Mercury, ♀ Venus, ♂ Mars, ♃ Jupiter, ♄ Saturn, ♅ Uranus, ♆ Neptune, ☾ Moon.

The above table enables us to find the planets throughout the year.

TRADE AND COMMERCE.

NOTE.—*In the following tables it will be understood that the fiscal year of the United States and that of the Dominion of Canada, end with the 80th of June. That of Great Britain ends with the 31st of December. The imports of the United States are rated at their coin value in the ports from which they are shipped. The imports of Great Britain are rated at their value, exclusive of duty, in the British ports where they are entered, including freights and profits of the importer. The values of the foreign trade of Great Britain are uniformly given in pounds sterling, the value of which is $4 86 and 65-100ths cents in our gold coin.*

The following statistical summaries of the foreign commerce of the United States, Great Britain and the Dominion of Canada, illustrate the transition from a period of great activity to one of extreme depression. The last commercial crisis which was common to Europe and America, previous to the one of two years ago, was in 1857. That was followed, in the case both of England and the United States, by a heavy decline in the imports and exports, which lasted until 1860. The crisis of 1873 has been followed by similar effects, and so was the panic of 1866, the consequences of which were mainly confined to Great Britain. At the present time (November, 1875) the appearances are that the effects of the panic and the general commercial depression will continue to the end of the current fiscal year.

By comparing the five years with each other, it will be found that the imports and consumption of tea, coffee, sugar and molasses are main-

tained with great steadiness, both in the United States and Great Britain. The greatest falling off in the imports of the United States and the exports of Great Britain, is shown in iron and steel and the manufactures of these articles. The quantities of the various manufactures of iron imported into the United States in 1874-5 are not one-fifth those imported in 1871-2. Next come the manufactures of cotton, woolen, silk and linen. The Bri ish exports of cotton manufactures, however, though greatly diminished in value, still show an increase in quantity. As might be inferred from the state of trade, the falling off in values of articles which show a decline is usually greater than the decline in quantities. In 1875, as compared with 1874, the exports of the United States show a serious decrease in cotton, wheat and wheat flour, petroleum, bacon and hams, tallow and leaf tobacco, the decrease in these important articles showing itself in quantities as well as values.

In THE TRIBUNE ALMANAC of last year, we made the following observations in regard to the export trade of the United States, the truth of

which is confirmed by the events of the twelve months which have passed since the tables for last year were compiled: "In examining the exports of the United States, the great fall in the value per cwt. of cotton and provisions, comparing 1869–70 with 1873–4, is to be noticed. Other striking features are the enormous quantities of breadstuffs and provisions exported in the last three years, the increase ranging from two to fivefold in four years. In the case of some of these articles, the capacity of the foreign markets to absorb our productions appears to have been reached, and no further increase is to be expected, at least until trade in Great Britain becomes more active. Bacon, hams, beef and lard are examples of the products to which we refer. On the other hand, there is reason to expect an increase in the exports of coal, leather, manufactures of iron and steel and cotton goods. The nation is under a necessity to export, both in payment for its imports and for the settlement of its large debts to foreigners. If cotton, breadstuffs, provisions, petroleum, tobacco and the available coin and bullion prove inadequate for such payments, other articles will be taken—namely, manufactures."

No. 9.—Foreign Trade of the Dominion of Canada.

[The Dominion of Canada consists of the six Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia and Manitoba. The British North American Provinces, outside of the Dominion, are Newfoundland and Prince Edward Island. The population of the four principal Provinces of the Dominion was 3,090,561 in 1861, and 3,485,761 in 1871.]

STATISTICS of the IRON MANUFACTURES of the UNITED STATES.

COMPILED FROM THE REPORT OF JAMES M. SWANK, SECRETARY OF THE AMERICAN IRON AND STEEL ASSOCIATION.

Presented to the members, October 1, 1875.

PRODUCTION OF PIG IRON IN THE UNITED STATES IN 1874.

The American Iron and Steel Association has received from the producers and from its correspondents full statistics of the production of pig iron in the United States in 1874. The total production was 2,689,413 net tons, against 2,868,278 net tons in 1873, and 2,854,558 net tons in 1872, showing a decrease of 178,865 tons as compared with 1873, and 165,145 tons as compared with 1872. Notwithstanding this decrease, the production in 1874 was much larger than has been generally estimated—much larger even than partial returns made to the Association at the close of 1874 indicated.

In 1872 there was every inducement for furnace-owners to make all the iron that was possible, for prices were high and the demand was constant; hence the hitherto unexampled yield of that year, 2,854,558 tons. In 1873 a number of large new furnaces, built in that year and in 1872, were put in blast, and during the first half of the year greatly augmented the production of iron over that of the corresponding period of 1872. Had the prices of 1872 been maintained during 1873, and the demand for iron experienced no abatement, there can be no doubt that the production of 1873 would have reached 3,500,000 tons. But at the beginning of summer it became evident that production was outrunning consumption, and it will be remembered that on the 19th of June a convention of pig iron makers assembled at Cleveland, and adopted a resolution recommending a restriction of production. This recommendation was so far followed or anticipated as to cause the blowing out during the summer of a number of furnaces. Others were blown out for repairs, at various periods during the year, and were not again put in blast. In September the panic came, and it was at once made evident, by the resultant shrinkage in prices and decrease in consumption, that production would have to be still further reduced, and accordingly a number of additional furnaces were blown out, so that, by the close of the year, of 665 furnaces then completed, 252 were out of blast and 413 were in blast. The production of the year was 2,868,278 tons, or 13,720 tons in excess of that of 1872. The year 1874 opened with 413 furnaces in blast, in which nearly every one of the large new and improved furnaces built in 1872 and 1873 was included. The hopes of a revival of business that were entertained at the beginning of the year were soon found to be delusive, and then began the agitation of the policy of still further restricting production by means of a definite system which should aim at an equitable division of the trade. This agitation proved fruitless, but while it was pending very few furnaces were blown out, while fully as many others, some of which were new, were blown in. It was not until near the close of the year that a general determination to blow out furnaces was reached, and when the year closed, of 701 furnaces then completed, 336 were out of blast and 365 were in blast. The production of the year was 2,689,413 tons, or 178,865 tons less than the product of 1873.

When we consider that the furnaces which made 2,854,558 tons of iron in 1872 were mostly small; that the lessened number of furnaces which made 2,868,278 tons in 1873 included all the large and improved new furnaces; and that there were almost as many furnaces in blast in 1874 as in 1873, the best furnaces running, while the poorest stood idle, we need no longer wonder that the production of 1874 was 2,689,413 tons, or only 178,865 tons less than the product of 1873.

The quantity of pig iron of all kinds which was on hand and unsold at the close of 1874 in the hands of makers or their agents was 795,784 net tons. The quantity which was held by speculative parties, or was in the hands of creditors; or in the hands of consumers, was undoubtedly large; so that, at the close of 1874, the total quantity of pig iron in the country, exclusive of the small stocks of foreign iron, may be safely estimated at 1,000,000 tons. Prices could not be expected to improve under such circumstances, and, although more furnaces have blown out since the 1st of January than have been blown in, the quantity of iron that has been made since then, joined to the 1,000,000 tons then on hand, has been entirely too large to exercise any other than a depressing effect on the market. On the 1st of February, 1875, of 701 completed furnace stacks in the country, there were in blast 203 stacks, and out of blast 398 stacks. Sixty-two furnaces had been blown out in January. Since February 1st the number of furnaces out of blast has been slightly increased. The number of new furnaces completed in 1874 was 38, against 50 in 1873 and 41 in 1872. The astonishing number of 46 stacks is reported as being in course of erection in 1875, while others are projected.

Below we present a table showing the growth of the pig iron branch of the iron trade of the United States from 1854 to 1874, compiled from statistics procured by this Association.

PRODUCTION OF ROLLED IRON IN THE UNITED STATES IN 1874.

Below will be found a table showing the production in net tons by States of all forms of rolled iron produced in the United States in 1874, including all kinds of rails, and nalls and spikes. As heretofore explained, our statistics of rolled iron embrace bar, band, hoop, plate, sheet, angle, girder, beam, boat, guide, rod, and bridge iron, and rolled axles. All forged iron, such as anchors, anvils, hammered axles, cranks, ships' knees, etc., is carefully excluded, because it is impossible to learn the whole amount of iron hammered or forged in the vast number of machine-shops, locomotive works, marine engine works, anchor works, and similar establishments of the country.

Total	689,280	175,258	245,609	729,413	1,839,560

The total production of all rolled iron in 1874, Bessemer steel rails included, was 1,839,560 net tons, against 1,966,445 tons in 1873, a decrease of only 126,885 tons. This decrease was all in rails. Of the total product of the rolling mills in 1874, 1,110,147 tons were rolled iron other than rails, against 1,076,368 tons in 1873, an increase of 33,779 tons. The number of tons of nail plate consumed in 1874 was 245,609 net tons, against 201,235 tons in 1873, an increase of 44,374 tons. The increase of 33,779 tons in the aggregate production of rolled iron other than rails in 1874 was therefore wholly in the department of cut nails and spikes. The total number of kegs of cut nails and spikes produced in 1874 was 4,912,180, against 4,024,704 kegs in 1873.

The following table will show the comparative production of rolled iron, excluding rails, and of cut nails and spikes, in all the States in 1873 and 1874.

PRODUCTION OF RAILS IN THE UNITED STATES IN 1874.

The total production of rails of all kinds in the United States in 1874, was 729,413 net tons, against 890,077 tons in 1873, 1,000,000 tons in 1872, and 775,733 tons in 1871. The following table will show the States which produced rails in 1874, and the character of the product, in net tons.

The whole number of rail rolling mills in the country in 1874 was 91, of which 57 make heavy rails mainly, and 34 make only light or street rails. Of the whole 91 mills, 22 made no rails in 1874. The product of the year was therefore rolled by 69 mills, and many of these ran only a part of the time. The capacity of all the rail rolling mills of the country is at least double the product of 1874, which was 729,413 net tons. Of the 67 mills which made rails in 1874, 7 made both iron and Bessemer steel rails, 1 made Bessemer steel rails exclusively, 2 made steel-headed

rails exclusively, 2 made steel-headed rails and iron rails, and one made solid cast steel rails and iron rails.

The following summary will show the sources of rail supply during these three years, in net tons:

Our exports of rails during the past four years have not been sufficiently large to affect appreciably the above figures of home consumption. They were as follows in net tons: 1871, 333; 1872, 1,212; 1873, 375; 1874, 1,257.

Below is a table which shows the production of each of the rail-making States during the past four years. The production of street, mine, and light rails in 1872 is given in the aggregate, but in the other years it is incorporated with the general rail product of the several States:

PRODUCTION OF BESSEMER STEEL IN THE UNITED STATES IN 1874.

The eight completed Bessemer steel establishments in this country were not fully occupied in filling orders during 1874. Nevertheless, the product of the year was greater than that of 1873. The production of Bessemer steel rails in 1874 was 144,944 net tons, against 129,015 net tons in 1873—a gain of 15,929 tons. The production of Bessemer steel rails in this country, since 1867, when they were first made upon orders, has been as follows in net tons:

1867	2,550	1871	38,250
1868	7,225	1872	94,070
1869	9,650	1873	129,015
1870	34,000	1874	144,944

Below is a table of the annual production in this country of merchantable Bessemer steel for *all* purposes, from 1867 to 1874, in net tons:

1867	3,000	1871	45,000
1868	8,500	1872	110,500
1869	12,000	1873	157,000
1870	40,000	1874	176,579

The total quantity of pig iron converted by the Bessemer or Pneumatic process was 140,404 net tons in 1872, 183,534 tons in 1873, and 204,352 tons in 1874.

The Edgar Thomson Steel Company Limited made their first blow on Thursday, August 26th last, started their blooming mill on Friday, Aug. 27th, and rolled their first rail on Wednesday, Sept. 1st. The works at once went into full operation. This company makes the ninth that is now engaged in making Bessemer steel rails in this country. The Lackawanna Iron and Coal Company will follow before the close of this year. The foundations of the Bessemer plant of the Vulcan Iron Works at St. Louis have just been laid.

The quantity of Bessemer ingots made in the United Kingdom during the last five years is stated as follows, by competent authority, in gross tons: In 1870, 215,000 tons; 1871, 329,000; 1872, 410,000; 1873, 496,000; 1874, 540,000.

The imports of steel rails from all countries into the United States in the calendar year 1874 were 100,486 net tons, against 159,571 tons in 1873, and 149,786 tons in 1872. Prior to 1872 the imports of steel rails were not separately classified, and there is consequently no record of the quantity imported. In the following table we give in net tons the production and importation of steel rails during the past three years, the combined figures indicating the consumption in those years:

STEEL RAILS.	1872.	1873.	1874.
Production of Bessemer steel rails	94,070	129,015	144,944
Importation, ditto	149,786	159,571	100,486
Consumption, ditto	243,856	288,586	245,430

The average price in currency at which American steel rails have been sold at the works since the establishment of the industry, is shown in the following summary:

1867	$160	1869	$132¼	1871	$102½	1873	$120½
1868	158½	1870	106¾	1872	112	1874	94¼

The prices obtained at the works thus far during 1875, have averaged about $75.

Below is a table showing, in net tons, the total production of steel other than Bessemer in this country during the past ten years:

1865	15,262	1870	35,000
1866	18,973	1871	37,000
1867	19,000	1872	38,000
1868	21,500	1873	50,000
1869	23,000	1874	47,481

During the calendar year 1874 our imports of steel ingots, bars, sheets and wire amounted to $2,673,611, against $3,865,316 in 1873, $4,106,087 in 1872, and $3,460,785 in 1871. Our exports of these articles in 1874 amounted to 343 net tons of the value of $29,557, against 26 tons in 1873 of the value of $5,481, 9 tons in 1872 of the value of $3,624, and 30 tons in 1871 of the value of $7,364. The increase in our exports and the decrease in our imports of these commodities in 1874 are very marked, and the statistics for 1874 are equally encouraging to the home manufacturer.

SUMMARY OF IRON AND STEEL PRODUCTION IN 1874.

From the foregoing statistics of the production of pig iron, rails, bar iron, steel, etc., in the United States in 1872, 1873 and 1874, the following table of the aggregate production of iron and steel is compiled, embracing the different branches of the iron trade:

PRODUCTS—NET TONS.	1872.	1873.	1874.
Pig Iron	2,854,558	2,868,278	2,689,413
All rolled iron, including nails	1,941,992	1,966,445	1,839,560
All rolled iron, including nails and excluding rails	941,992	1,076,368	1,110,147
Rails of all kinds	1,000,000	890,077	729,413
Bessemer steel rails	94,070	129,015	144,944
Iron and all other rails	905,930	761,062	584,469
Street rails	15,000	9,430	6,739
Kegs of cut nails and spikes	1,065,322	1,024,704	1,912,780
Merchantable Bessemer steel other than rails	16,430	27,985	31,635
Total of merchantable Bessemer steel	110,500	157,000	176,579
Crucible cast steel	27,260	32,786	34,128
Open-hearth steel	3,000	3,500	7,000
All other steel	7,740	13,714	6,353
Blooms from ore and pig iron	58,000	62,564	61,670

The consumption of rails in any given year can be ascertained with a great degree of accuracy by assuming that the quantity carried over from year to year is always about the same, and that the total of imports and production is therefore consumed. The following table will show the probable consumption of rails in this country during 1872, 1873 and 1874:

RAILS.	1872. Net Tons	1873. Net Tons	1874. Net Tons
Production of iron rails	905,930	761,062	584,469
Production of Bessemer rails	94,070	129,015	144,944
Importation of iron rails	381,064	99,202	7,796
Importation of Bessemer rails	149,786	159,571	100,486
Probable consumption	1,530,850	1,148,850	837,695

These figures indicate a reduced consumption of rails of all kinds in 1874 of 311,155 tons, as compared with 1873, and of 693,155 tons as compared with 1872.

COTTON STATISTICS.

Previously to 1790, the United States did not export a pound of cotton. A little had been raised for domestic use before the Revolution, but the quantity was of no importance. In 1791 the trifling quantity of 189,316 lbs. was exported, and in 1792, 138,328 lbs.—not enough in both years to load an average sized schooner. About this time Eli Whitney invented the cotton gin, by which the wool of the uplaud cotton is separated from the seed with facility, whereas before the process was so difficult that the cotton was hardly worth the labor of preparing it. The effect of this invention was immediately perceptible in the exports of cotton, which increased in 1794 to 1,601,760 lbs., and in 1795 to 5,276,300 lbs. By 1821 they had increased to 124,893,405 lbs. of the value of $20,157,484, and at present the exports upon an average exceed 1,100,000,000 lbs. of the average value in our paper currency of $200,000,000. The following table shows the annual production of cotton in bales in the United States for a period of 54 years.

1838-39	1,360,532	1856-57	2,939,519	1874-75	3,832,991

The above statistics show an average for the last three years of nearly 4,000,000 bales. Of this aggregate, on an average of the last four years, 1,200,000 bales a year have been consumed by the manufacturers of our own country. According to the valuable statistics of *The Commercial and Financial Chronicle*, Northern manufacturers took from the crop 896,860 bales in 1869-70; 1,008,956 bales in 1870-1; 977,540 bales in 1871-2; 1,063,465 bales in 1872-3; 1,177,417 bales in 1873-4, and 1,062,522 bales in 1874-5. Manufacturers in the Southern States took 90,000 bales in 1869-70; 91,240 bales in 1870-1; 120,000 bales in 1871-2; 137,662 bales in 1872-3; 128,526 bales in 1873-4, and 130,483 bales in 1874-5.

The late J. R. McCulloch, an eminent authority in political economy among the inhabitants of the British Isles, expatiates in his Dictionary of Commerce on the immense obstacles to be overcome before the cotton manufacture could gain a secure footing in the United States. He regarded that species of industry as having been forced into a premature existence here by a protective tariff, and expressed the opinion that such a misdirection of capital and industry could

end in nothing but ruin to the parties involved in it. While the people of the United States can agree with Mr. McCulloch that without the protection of the tariff the cotton manufacture could never have reached its present development in our country, it may at the present time be seriously debated whether the manufacture might not continue to flourish with unabated vigor were the protective duties abolished and revenue duties alone collected, as is the case in Canada. The fact, however, is beyond doubt that the United States rank next to Great Britain and far in advance of all other countries in the manufacture of cotton goods, though the products of our factories are almost exclusively for home consumption.

The United States produce more cotton than all the rest of the world together. The annual consumption of cotton in Europe and North America is now estimated at 2,700,000,000 lbs., of which 1,250,000,000 are worked up in Great Britain, 925,000,000 lbs. on the Continent of Europe, and 525,000,000 lbs. in the United States. Of this total of 2,700,000,000 lbs., over 1,700,000,000 lbs. are grown in the United States, and less than 1,000,000,000 in India, Egypt, Brazil, and other countries. By consulting Table No. 2, on the preceding page, it will be seen that Great Britain is the destination of from two-thirds to three-quarters of all our exports of cotton, the greater portion of the remainder going to the Continent of Europe. Table No. 3 shows that previously to 1861 more than three-fourths of all the cotton imported into Great Britain came from the United States, whereas upon an average of the last four years but little more than one-half of the British imports came from this country. It will be noticed that a large quantity of cotton, which is finally manufactured by the nations of Continental Europe is first imported by Great Britain, and then re-exported to its final place of destination. The quantity for the last ten years has ranged from 220,000,000 to 389,000,000 lbs.

AMERICAN AND BRITISH SHIPPING.

The following tables exhibit, in the strongest light, the decadence in the foreign commerce of American shipping since 1860, and the great increase, during the same period, of British tonnage. Fifteen years ago two-thirds of the tonnage which entered and cleared at our ports, carried our own flag, and in British ports our flag was seen almost as often as British colors. The state of things is now reversed, British-built steamers and other vessels doing, we suppose, two-thirds of the foreign carrying trade of the world. The accompanying statistics, which have never before been placed in juxtaposition, will be found an interesting study.

UNITED STATES REVENUE AND EXPENDITURE.

It is sufficiently evident that, whilst one-third of the national revenue is necessarily absorbed by the payment of interest, a persevering application of the resources afforded by seasons of peace and prosperity, to the discharge of the principal, in the manner directed by the Legislature, is the only effectual mode by which the United States can ultimately obtain the full command of their revenue, and the free disposal of all their resources.—Albert Gallatin, Report on the Finances, Dec. 9, 1805.

THE FOREIGN MARKETS FOR OUR BREADSTUFFS.

The first of the subjoined tables shows that while the exports of our wheat to foreign countries are subject to great fluctuations, the movement for the last two fiscal years has been on a greater scale than during any former period. The total exported, exclusive of flour, rose from 3 million bushels in 1859, to 37 millions in 1862; then fell to less than 6 millions in 1866, and increased again to 71 millions in 1874. The second table shows that the British imports of wheat from each country are subject to corresponding vicissitudes, the fluctuations in the aggregate imported being less violent, but still considerable. The average quantity imported into Great Britain for five years past, including 1875, which is not embraced in our table, is about 42½ million cwts., or 80 million bushels. The United States, counting the exports directly from our own ports and indirectly through the ports of Canada, are by far the most important source of supply. For the annual value of the wheat exported from the United States to all countries, and imported into Great Britain from all countries, see the tables on pages 10 nd 11.

In addition to the exports of wheat, there were exported from the United States, in the fiscal year 1874, 4,094,094 barrels of wheat flour, and in 1875, 3,951,086 barrels. The principal countries to which flour is exported from the United States are Great Britain, the West Indies, Brazil, the British North American Provinces, New Grenada and Venezuela.

For four years past the exports of Indian corn have been of great consequence, the quantity averaging more than 80,000,000 bushels a year, and the value exceeding $25,000,000 in paper currency. Great Britain is the principal market for this product, the quantities sent to other countries being comparatively insignificant.

The foregoing is a correct statement of the Public Debt, as appears from the books and Treasurer's Returns in the Department at the close of business, November 30, 1875.

BENJAMIN H. BRISTOW,
Secretary of the Treasury.

ABSTRACT OF PUBLIC LAWS,

PASSED AT THE SECOND SESSION OF THE FORTY-THIRD CONGRESS, WITH A SUMMARY OF APPROPRIATIONS MADE

THE CURRENCY.

[The following is the Act of Jan. 14, 1875, providing for the resumption of specie payments on Jan. 1, 1879. This act was agreed upon by a caucus of Republican Senators, and made a party measure both in the Senate and House of Representatives, the Democrats, as a general thing, voting against it.]

Chap. 15.—*An act to provide for the resumption of specie payments—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That the Secretary of the Treasury is hereby authorized and required, as rapidly as practicable, to cause to be coined at the mints of the United States, silver coins of the denominations of ten, twenty-five, and fifty cents, of standard value, and to issue them in redemption of an equal number and amount of fractional currency of similar denominations, or, at his discretion, he may issue such silver coins through the mints, the subtreasuries, public depositaries, and post-offices of the United States; and, upon such issue, he is hereby authorized and required to redeem an equal amount of such fractional currency, until the whole amount of such fractional currency outstanding shall be redeemed.

SEC. 2. That so much of section three thousand five hundred and twenty-four of the Revised Statutes of the United States as provides for a charge of one-fifth of one per centum for converting standard gold bullion into coin is hereby repealed, and hereafter no charge shall be made for that service.

SEC. 3. That section five thousand one hundred and seventy-seven of the Revised Statutes of the United States, limiting the aggregate amount of circulating notes of national banking associations, be, and is hereby, repealed; and each existing banking association may increase its circulating notes in accordance with existing law without respect to said aggregate limit; and new banking associations may be organized in accordance with existing law without respect to said aggregate limit; and the provisions of law for the withdrawal and redistribution of national bank currency among the several States and Territories are hereby repealed. And whenever, and so often, as circulating notes shall be issued to any such banking association, so increasing its capital or circulating notes, or so newly organized as aforesaid, it shall be the duty of the Secretary of the Treasury to redeem the legal-tender United States notes in excess only of three hundred million of dollars, to the amount of eighty per centum of the sum of national bank notes so issued to any such banking association as aforesaid, and to continue such redemption as such circulating notes are issued until there shall be outstanding the sum of three hundred million dollars of such legal-tender United States notes, and no more. And on and after the first day of January, anno Domini eighteen hundred and seventy-nine, the Secretary of the Treasury shall redeem, in coin, the United States legal-tender notes then outstanding on their presentation for redemption, at the office of the assistant treasurer of the United States in the city of New York, in sums of not less than fifty dollars. And to enable the Secretary of the Treasury to prepare and provide for the redemption in this act authorized or required, he is authorized to use any surplus revenues, from time to time, in the Treasury not otherwise appropriated, and to issue, sell, and dispose of, at not less than par, in coin, either of the descriptions of bonds of the United States described in the act of Congress approved July fourteenth, eighteen hundred and seventy, entitled, "An act to authorize the refunding of the national debt," with like qualities, privileges and exemptions to the extent necessary to carry this act into full effect, and to use the proceeds thereof for the purposes aforesaid. And all provisions of law inconsistent with the provisions of this act are hereby repealed.

Approved, January 14, 1875.

Chap. 19.—Removes the limit on the circulation of banks issuing notes payable in gold, which was formerly a maximum of $1,000,000 by any one bank.

THE CIVIL RIGHTS BILL.

Chap. 114.—*An act to protect all citizens in their civil and legal rights.*—Whereas, it is essential to just government we recognize the equality of all men before the law, and hold that it is the duty of government, in its dealings with the people, to mete out equal and exact justice to all, of whatever nativity, race, color, or persuasion, religious or political, and it being the appropriate object of legislation to enact great fundamental principles into law: Therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all persons within the jurisdiction of the United States shall be entitled to the full and equal enjoyment of the accommodations, advantages, facilities, and privileges of inns, public conveyances on land or water, theaters, and other places of public amusement; subject only to the conditions and limitations established by law, and applicable alike to citizens of every race and color, regardless of any previous condition of servitude.

SEC. 2. That any person who shall violate the foregoing section by denying to any citizen, except for reasons by law applicable to citizens of every race and color, and regardless of any previous condition of servitude, the full enjoyment of any of the accommodations, advantages, facilities, or privileges in said section enumerated, or by aiding or inciting such denial, shall, for every such offense, forfeit and pay the sum of five hundred dollars to the person aggrieved thereby, to be recovered in an action of debt, with full costs; and shall also, for every such offense, be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than five hundred nor more than one thousand dollars, or shall be imprisoned not less than thirty days nor

more than one year: *Provided*, That all persons may elect to sue for the penalty aforesaid, or to proceed under their rights at common law and by State statutes; and having so elected to proceed in the one mode or the other, their right to proceed in the other jurisdiction shall be barred. But this proviso shall not apply to criminal proceedings, either under this act or the criminal law of any State: *And provided further*, That a judgment for the penalty in favor of the party aggrieved, or a judgment upon an indictment, shall be a bar to either prosecution respectively.

SEC. 3. That the district and circuit courts of the United States shall have, exclusively of the courts of the several States, cognizance of all crimes and offenses against, and violations of, the provisions of this act; and actions for the penalty given by the preceding section may be prosecuted in the territorial, district or circuit courts of the United States wherever the defendant may be found, without regard to the other party; and the district attorneys, marshals, and deputy marshals of the United States, and commissioners appointed by the circuit and territorial courts of the United States, with powers of arrestiog and imprisoning, or bailing, offenders against the laws of the United States, are hereby specially authorized and required to institute proceedings against every person who shall violate the provisions of this act, and cause him to be arrested and imprisoned, or bailed, as the case may be, for trial before such court of the United States, or territorial court, as by law has cognizance of the offense, except in respect of the right of action accruing to the person aggrieved; and such district attorneys shall cause such proceedings to be prosecuted to their termination as in other cases: *Provided*, That nothing contained in this section shall be construed to deny or defeat any right of civil action accruing to any person, whether by reason of this act or otherwise; and any district attorney who shall willfully fail to institute and prosecute the proceedings herein required, shall, for every such offense, forfeit and pay the sum of five hundred dollars to the person aggrieved thereby, to be recovered by an action of debt, with full costs, and shall, on conviction thereof, be deemed guilty of a misdemeanor, and be fined not less than one thousand nor more than five thousand dollars: *And provided further*, That a judgment for the penalty in favor of the party aggrieved against any such district attorney, or a judgment upon an indictment against any such district attorney, shall be a bar to either prosecution respectively.

SEC. 4. That no citizen possessing all other qualifications which are, or may be, prescribed by law shall be disqualified for service as grand or petit juror in any court of the United States, or of any State, on account of race, color, or previous condition of servitude; and any officer or other person charged with any duty in the selection or summoning of jurors who shall exclude or fail to summon any citizen for the cause aforesaid shall, on conviction thereof, be deemed guilty of a misdemeanor, and be fined not more than five thousand dollars.

SEC. 5. That all cases arising under the provisions of this act in the courts of the United States shall be reviewable by the Supreme Court of the United States, without regard to the sum in controversy, under the same provisions and regulations as are now provided by law for the review of other causes in said court.

Approved, March 1, 1875.

TAXES ON LIQUORS AND TOBACCO, AND DUTIES ON SUGARS AND VARIOUS IMPORTED COMMODITIES INCREASED.

Chap. 127.—*An act to further protect the sinking fund and provide for the exigencies of the Government.—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That from and after the passage of this act there shall be levied and collected on all distilled spirits thereafter produced in the United States, a tax of ninety cents on each proof gallon, or wine-gallon when below proof, to be paid by the distiller, owner or person having possession thereof, before removal from the distillery bonded warehouse; and so much of section three thousand two hundred and fifty-one of the Revised Statutes of the United States as is inconsistent herewith is hereby repealed.

SEC. 2. That section three thousand three hundred and sixty-eight of the Revised Statutes be, and the same is hereby, amended by striking out the words "twenty cents a pound" (on tobacco and snuff), and inserting in lieu thereof, the words "twenty-four cents a pound;" and that section three thousand three hundred and ninety-four of the Revised Statutes be, and the same is hereby, amended by striking out the word "five" wherever it occurs therein, and inserting instead thereof the word "six," and by striking out the word "fifty" and inserting instead thereof the words "seventy-five" (these two amendments apply to the tax on cigars); *Provided*, That the increase of tax herein provided for shall not apply to tobacco on which the tax under existing law shall have been paid when this act takes effect. *And provided further*, That whenever it shall be shown to the satisfaction of the Secretary of the Treasury by testimony under oath that any person liable to pay the increased tax by this section imposed had prior to the tenth day of February, eighteen hundred and seventy-five, made a contract for the future delivery of such tobacco, cigars, and cigarettes at a fixed price, which contract was in writing prior to that date, such tobacco may be delivered to the contracting party entitled thereto under special permit from the Commissioner of Internal Revenue provided therefor, without previous payment of such additional tax; but the said additional tax shall be a lien thereon, and shall be paid by and collected from the purchaser under such contract before the sale or removal thereof by him, and when demanded by the collector of internal revenue for the district to which the same shall be removed for delivery to the purchaser; and any sale or removal by such purchaser, prior to the payment of such tax, shall subject him and such tobacco so sold or removed to all the penalties and processes of law provided in the case of manufacturers of tobacco so selling or removing tobacco to avoid the payment of tax.

SEC. 3. That on all molasses, concentrated molasses, tank-bottoms, syrup of sugar cane juice, melada, and on sugars according to the Dutch standard in color, imported from foreign

countries, there shall be levied, collected and paid, in addition to the duties now imposed in schedule G, section two thousand five hundred and four of the Revised Statutes, an amount equal to twenty-five per centum of said duties as levied upon the several articles and grades therein designated; *Provided*, That concentrated melada, or concrete, shall hereafter be classed as sugar dutiable according to color by the Dutch standard: and melada shall be known and defined as an article made in the process of sugar-making, being the cane-juice boiled down to the sugar point, and containing all the sugar and molasses resulting from the boiling process and without any process of purging or clarification, and any and all products of the sugar-cane imported in bags, mats, baskets or other than tight packages shall be considered sugar and dutiable as such. *And provided further*, That of the drawback on refined sugars exported allowed by section three thousand and nineteen of the Revised Statutes of the United States, only one per centum of the amount so allowed shall be retained by the United States.

SEC. 4 That so much of section two thousand five hundred and three of the Revised Statutes as provides that only ninety per centum of the several duties and rates of duty imposed on certain articles therein enumerated by section two thousand five hundred and four shall be levied, collected, and paid be, and the same is hereby, repealed; and the several duties and rates of duty prescribed in said section two thousand five hundred and four shall be and remain as by that section levied, without abatement of ten per centum as provided in section two thousand five hundred and three.

SEC. 5 That the increase of duties provided by this act shall not apply to any goods, wares, or merchandise actually on shipboard and bound to the United States, on or before the tenth day of February, eighteen hundred and seventy-five, nor on any such goods, wares, or merchandise on deposit in warehouses or public stores at the date of the passage of this act.

SEC. 6. That nothing contained in the act entitled "An act to amend existing customs and internal revenue laws, and for other purposes," approved February eighth, eighteen hundred and seventy-five, shall be construed to impose any duty on bolting-cloths theretofore admitted free of duty; nor to require the use of a stamp upon the receipt in the receipt-book of a savings bank or institution for savings having no capital stock, and doing no other business than receiving deposits to be loaned or invested for the sole benefit of the parties making such deposits without profit or compensation to the association or company, when money is paid to a depositor on his passbook.

Approved, March 3, 1875.

Currency Contraction.

The laws in force affecting the paper currency of the country have produced a contraction of the circulating medium during the 17 months ended Nov. 30, beyond the expectation of the general public, as may be demonstrated by the light cast upon the subject by the recent report of Controller Knox on the National banks, viz.:

I. The legal-tender money, issued directly by the Government, was,

On 1st of July, 1874	$382,000,000
On 1st of December, 1875	372,471,772
Decrease	$9,528,228

The above decrease is to compensate for the issue since Jan. 14, 1875, of $11,010,360 additional circulation to the National banks.

II. The fractional currency outstanding was,

On 1st of July, 1874	$45,881,296
On 1st of December, 1875	42,356,105
Decrease	$3,525,191

III. The National bank circulation outstanding was,

On June 20, 1874	$349,894,182
On November 1, 1875	345,586,902
Decrease	$4,307,280

IV. Under the Act of June 20, 1874, for retiring bank circulation, the greenbacks remaining on deposit with the U. S. Treasurer, for the redemption and retirement of bank notes was,

On November 1, 1875	$20,238,642
On June 30, 1874	3,813,675
Increase	$16,424,967

V. The currency balance of the Treasury was,

On June 30, 1874	$14,576,011
On November 30, 1875	12,014,962
Decrease	$2,561,049

Finally, summarizing the above changes, we have the following as the net result:

Decrease of legal tenders	$9,528,228
Decrease of postal currency	3,525,191
Decrease of bank notes	4,307,280
Increase of legal tenders on deposit for redemption of bank notes	16,424,667
Total contraction	$33,785,666
Treasury balance reduced	2,561,049
Net contraction	$31,224,617

As regards the banks, the contraction is $16,233,192 greater than the above total, that being the amount of permanent deposit with the U. S. Treasurer for the redemption and return of their notes.

Benjamin K. Phelps's maj. over Peter B. Olney, 26,593; William H. Wickham over Wales, 33,118; over Oswald Ottendorfer, 45,845; over both, 8,892.

An election was held in the thirty-third district (Cattaraugus and Chautauqua Counties) for representative to fill the vacancy caused by the death of the late Augustus F. Allen; but it was attended by so much informality that the State canvassers declined to declare the election of either Charles S. Cary or Nelson I. Norton, who were the leading candidates; so unless the House of Representatives shall determine which, if either, of the gentlemen was chosen, the district must for the present continue to be unrepresented in Congress.

Three judges of the Supreme Court were elected, but the Democrats nominated but one candidate, George B. Lake, Daniel Gantt and Samuel Maxwell, the successful Republican candidates, were re-elected, having been first chosen by the people in 1872.

Silas Garber's maj. for Governor in 1874, 7,117 over all. Lorenzo Crounse's maj. for Congressman in 1874, 8,011; Grant's maj. in 1872, 10,517. Total vote for Governor in 1874, 36,019; for Congressman in 1874, 35,833; for President in 1872, 26,141.

In 1875, the counties of Frontier and Red Willow did not send in their returns in season to be included in the official canvass. We have included their vote in the above table.

In 1875, a new Constitution was adopted by a vote of 30,202 in favor of to 5,474 against.

"HOLD

firmly to the great principle, that in sickness Nature should be *assisted* not *prostrated*. It is because TARRANT'S EFFERVESCENT SELTZER APERIENT refreshes and invigorates the system, while it removes, without pain, all obstructive matter from the bowels, that it has become a standard alterative, and is

FAST

superseding all the stereotyped purgatives which have heretofore racked, and scourged, and weakened the human frame. The tonic, cathartic, and anti-bilious ingredients so happily blended in the waters of the celebrated Seltzer Spring, as well as the ebullience peculiar to that natural corrective and febrifuge, impart

TO

this *chemical counterpart* of the German Spa a purifying, renovating, and regulating influence, which does not exist in any other medicinal preparation in use. It quiets the disturbed stomach, promotes perspiration, quickens the action of the kidneys, and superinduces

THAT

delightful tranquility of the nervous system which is hailed by every invalid as a certain indication of convalescence. The saline elements of the SELTZER APERIENT, being taken up by the absorbents, have also a salubrious effect upon the secretions and the blood. This is the preparation

WHICH IS

now being prescribed by physicians everywhere as a superior cathartic nervine tonic, and blood depurent. Violent drugs have had their day. The faculty and the sick alike discard them, and having proved the excellence of the APERIENT, are determined to "*hold fast to that which is*

GOOD."

The preparation will keep for a length of time, and all that is necessary to convert the powder into a sparkling, foaming, thirst-quenching, and delicious draught, is the addition of a little cold water. Thus may every invalid have a duplicate of the Seltzer Spa at his elbow, although the natural fountain bubbles from the earth in Prussia, four thousand miles away.

Sold by all Druggists.

NEW YORK TRIBUNE.

"THE LEADING AMERICAN NEWSPAPER."

The year 1876 promises to be crowded with more important and interesting occurrences than any since the close of the war. We shall celebrate the one hundredth anniversary of our national birth with the most remarkable display of our arts and industries, and the greatest concourse of visitors ever seen on the continent. We shall elect a new President under circumstances which threaten to make the political campaign peculiarly exciting. The House of Representatives for the first time since the close of Mr. Buchanan's term is under the control of the Democratic party, and it proposes to lay bare the secrets of the Administration now drawing to a close. Its course during the next six months will define the policy by which the Democratic party hopes to rule the country; while the action of the Republicans is likely to determine whether the organization which saved the Union and freed the slave is to fall to pieces or enter upon a new career of usefulness. In the practical work of government there are great abuses to be swept away, and many promises to be put to the test. In the settlement of the national finances the year may mark the crisis of our affairs. In trade, commerce and productive industry there are hopes that it will witness the long deferred revival. In religion it promises a great revival, and there are many signs that the relations of the Church to the State, and particularly to the State schools, will provoke sharp discussion, and enter largely into politics.

In such a stirring and crowded period, THE TRIBUNE confidently appeals to its past record and its present performance, as constituting its claim for the continued regard of all old readers, and the accession of many new ones. No intelligent citizen can afford during such a year as 1876 to dispense with an independent newspaper, upon which he can rely for an impartial record of events, undistorted by partisan necessities or personal hates or ambitions.

THE TRIBUNE will maintain with the old fervor the old Republican principles of which it was the champion all through the American conflict, and it will rejoice whenever those principles are victorious under the old banners. But it can never be the servant of caucuses or conventions; it must approve what it finds good in the acts and professions of either party, and apologize for the wrongdoings of neither. In giving the news it endeavors to set forth the truth, the whole truth, and nothing but the truth; in politics its great object is to elect honest men, whom the country knows and can trust; to secure hard money, Administrative reform, such economy in public affairs as the hard times compel from private citizens, and, as a consequence, lower taxes. Thus it found itself last Fall, rallying the forces for the splendid hard-money triumphs won by the Republicans and their allies in Ohio and Pennsylvania, and as earnestly striving to hold up the hands of an Administration in New York, which was busy fighting the Canal Ring, stopping leaks in the treasury, and lowering taxes. In each case it found the people sustaining its positions, and it hopes to be so clearly right in its political course

through all the storms of 1876 as to win equal success, and command yet greater approval.

One result of this policy of struggling for the triumph of honest men and sound principles, without being too much controlled by mere party names, has been that both parties find themselves forced to abandon some of the worst practices of the old caucus system, to put forward their best men, and to practice some of the reforms they preach. It may fairly be claimed that conscientious and independent voters have thus within two or three years gradually forced both parties up to a somewhat higher plane, and we may hope that the Centennial year will witness still greater improvement.

THE TRIBUNE will continue to labor for this end with the methods which have already commended it to popular favor. It will endeavor to combine the utmost candor with judicial fairness; will keep its columns free from personal wrangling; will waste no time in replying to the incessant attacks its success provokes from envious rivals, and as heretofore will reserve all its space for its readers' interests.

From those who believe such a journal a desirable visitor in their families, THE TRIBUNE solicits a continuance of the favor it has so conspicuously enjoyed in the past. During the years 1874 and 1875 the position assigned it long ago by foreign critics, "as the leading American newspaper" has come to be generally recognized, and its circulation has been greater than at any previous period in its history. It has won this position by the closest watchfulness and the most lavish expenditure to procure the freshest intelligence, the most complete reports, the most interesting letters and essays, and the ablest work in every department. Its staff includes the most accomplished men in the profession, and among its outside contributors it numbers many of the most eminent men in the country.

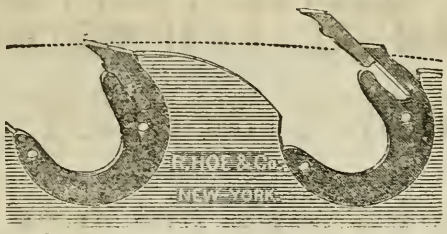
MOVABLE AND SOLID TEETH CIRCULAR SAWS.



The above cut shows a section, in reduced size, of R. Hoe & Co.'s new Chisel-Tooth Saw. Patented May 12, 1874.

The teeth or bits are made of the best edge-tool steel, and are furnished spread and ground ready for use, no swedging or filing being required; they are all exactly alike, cut smooth, and the corners will not break off even in the hardest knots. One tooth costing but three cents will cut, depending upon the quality of the timber, from fifteen hundred to three thousand feet before it is worn out, and a saw with thirty teeth will cut from forty to one hundred thousand feet to each set.

The shank holding the teeth is made of the very best spring steel, thoroughly tempered, and from the manner in which the teeth are inserted in shank and the shank in the saw, there is no possibility of either becoming displaced.

One set of teeth may be removed and replaced by another, in less than five minutes.

This style saw is the strongest ever made, and if run upon iron may be repaired at one-tenth the cost of any other; and to work it requires *twenty-five per cent.* less power than the average saw.

We guarantee each saw to give entire satisfaction, and are receiving the most flattering reports from those we are sending out daily.

The Chicago and Northwestern Railway

Embraces under one management the Great Trunk Railway lines of the **West** and **Northwest**, and, with its numerous branches and connections, forms the

Shortest and Quickest Route between CHICAGO and all points in Illinois, Wisconsin, Northern Michigan, Minnesota, Iowa, Nebraska, CALIFORNIA, and the Western Territories.

San Francisco	Denver	Minneapolis	Winona	Ishpeming	Stevens Point
Sacramento	**Omaha**	Cedar Rapids	**St. Paul**	Negaunee	Oshkosh
Ogden	Council Bluffs	Dubuque	Duluth	Escanaba	Madison
Salt Lake City	Yankton	La Crosse	Marquette	**Green Bay**	**Milwaukee**
Cheyenne	Sioux City	Pra. du Chien	L'Anse	Menasha	

Are all on the line of this Great Road, or are reached by this Route with less changes of cars than by any other.

On the arrival of the trains from the East or South, the trains of the Chicago and Northwestern Railway LEAVE CHICAGO as follows:

For Council Bluffs, Omaha and California, Two Through Trains daily, with Pullman Palace Drawing Room and Sleeping Cars through to Council Bluffs.

For St. Paul and Minneapolis, Two Through Trains daily, with Pullman Palace Cars attached on both trains.

For Green Bay and Lake Superior, Two Trains daily, with Pullman Palace Cars attached, and running through to Marquette.

For Milwaukee, Four Through Trains daily. Pullman Cars on night trains, *Parlor Chair Cars on day trains.*

For Sioux City and Yankton, Two Trains daily. Pullman Cars to Missouri Valley Junction.

For Lake Geneva, Four Trains daily.

For Rockford, Sterling, Kenosha, Janesville, and other points, you can have from two to ten trains daily.

All trains on the Michigan Central, Pittsburgh & Fort Wayne, Lake Shore & Mich. Southern, and Baltimore & Ohio Railroads make connection with this Popular Route for all points West, North, and Northwest.

All Express Trains on this route are equipped with *WESTINGHOUSE PATENT AIR BRAKES* and *MILLER'S SAFETY PLATFORM AND COUPLERS*—the Most Perfect Protection against Accidents known.

This popular Route is unsurpassed for Speed, Comfort and Safety. The Smooth, well Ballasted and Perfect Track of Steel Rails, the celebrated PULLMAN PALACE Sleeping Cars, the Perfect Telegraph System of Moving Trains, the Regularity with which they run, the admirable arrangement for running Through Cars from Chicago to all points West, North and Northwest, secure to passengers all the *Comforts in Modern Railway Traveling.*

The Pullman Drawing Room and Sleeping Cars, such as run on this Popular Route, are so constructed as to combine the convenience and elegance of a private parlor by day, and the comforts of a well furnished bed-chamber by night—clean bedding, thick hair mattresses, thorough ventilation, etc., etc. Conductors and Porters accompany each car to provide for the wants of passengers.

This is the only line running these Cars between Chicago and St. Paul or Chicago and Milwaukee.

At Omaha our Sleepers connect with the Overland Sleepers on the Union Pacific Railroad for all points west of the Missouri River.

Ask any ticket agent to show you its maps and time cards. All ticket agents can sell you through tickets by this route.

IT PAYS! IT PAYS!

WHAT PAYS?

IT PAYS every **Manufacturer, Merchant, Mechanic, Inventor, Farmer,** or **Professional man,** to keep informed on all the improvements and discoveries of the age.

IT PAYS **the head of every family** to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and promotes thought and encourages discussion among the members.

The SCIENTIFIC AMERICAN

which has been published weekly for the last thirty years, does this, to an extent beyond that of any other publication, in fact it is the only weekly paper published in the United States devoted to **Manufactures, Mechanics, Inventions** and **New Discoveries** in the Arts and Sciences.

Every number is profusely illustrated and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical and Scientific Progress of the World; Descriptions, with Beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Receipts, Suggestions and Advice by practical Writers, for Workmen and Employers, in all the various arts, forming a complete repertory of New Inventions and Discoveries; containing a weekly record not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past Thirty Years. It is the **oldest, largest, cheapest,** and the **best** *weekly* illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the World.

The practical receipts are well worth ten times the subscription price. And for the shop and house will save many times the cost of subscription.

Merchants, Farmers, Mechanics, Engineers, Inventors, Manufacturers, Chemists, Lovers of Science, and People of all Professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office, and Counting Room; in every Reading Room, College and School.

A year's numbers contain 832 pages and SEVERAL HUNDRED ENGRAVINGS. Thousands of volumes are preserved for binding and reference. Terms, $3.20 a year by mail, including postage. Discount to Clubs. Special circulars giving Club rates sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

In connection with the SCIENTIFIC AMERICAN, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms, Models of New Inventions and Sketches examined and advice free. A special notice is made in the **Scientific American** of all Inventions Patented through this Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. Send for Pamphlet, containing full directions for obtaining Patents. A bound volume containing the **Patent Laws, Census of the U. S., and 142 Engravings** of mechanical movements. **Price, 25 cents.**

THE

New York Ledger

FOR THE NEW YEAR, 1876.

POSTAGE FREE.

THE BEST PAPER THAT EXPERIENCE AND CAPITAL CAN MAKE.

We are profoundly grateful for the generous and increasing support of the American public which we are made to feel at the close of every year when the renewed and new subscriptions to the *Ledger* flow in, like the influx of a mighty tide. This liberal support we make unremitting efforts to deserve. We select the best writers in the world without regard to cost, for, once convinced that one author will be more acceptable to our readers than another, the price is never permitted to be an obstacle in our way.

We have now had many years' experience, and we shall leave no exertion unmade to render the *Ledger* for the year 1876 superior to any preceding volume.

Our most popular old writers, whose excellence is established, will write, as heretofore, most of them exclusively, for the *Ledger*.

We are always on the alert for any new feature that we think will render the *Ledger* more attractive.

The *Ledger* is always a *live* paper, keeping pace with the genius and spirit of American progress.

It contains the purest, sweetest, and most delightful stories, striking narratives, and instructive biographical and historical sketches.

It has the most popular and carefully prepared collection of scientific facts.

We shall continue to reply to questions on all interesting subjects as heretofore. Not only are these questions genuine, coming directly from the people, but we receive thousands more than we have space to answer.

We receive constant assurances, in almost countless letters, of the happiness which the *Ledger* carries into the families where it goes. All who wish to secure to themselves that enjoyment will send in their subscriptions without delay.

Our subscribers will have no postage to pay. We prepay the postage on every paper that we mail. Notwithstanding this, there will be no increase in the price of the *Ledger*. As will be seen by the following, our rates remain unchanged:

OUR TERMS FOR 1876.—POSTAGE FREE.

Single copies, $3 per annum; four copies, $10, which is $2.50 a copy; eight copies, $20, *postage free*. The party who sends us $20 for a club of eight copies, (all sent at one time,) will be entitled to a copy *free*. Postmasters and others who get up clubs, in their respective towns, can afterward add single copies at $2.50. No subscriptions taken for a less period than one year. When a draft or money-order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. Remember that the postage on the *Ledger* to all parts of the country will be paid by us, so that our subscribers will have no postage to pay.

☞ We employ no traveling agents. Address all commmunications to

NEW YORK TRIBUNE.

"THE LEADING AMERICAN NEWSPAPER."

The Paper for Business Men, Farmers, Families, and all the People.

1. It publishes all the news.

2. It is candid and independent in all things.

3. Its moral tone is unexceptionable, nothing appearing in its pages unsuited for the most refined and cultured family circle.

4. It has the best and freshest correspondence, poems, stories; in short, the cream of the current literature of the day.

5. Its Agricultural Department is the fullest, most thorough, practical, and useful in any paper, giving its readers in each number as much or more than the highest priced monthlies.

6. Its Market Reports are the generally accepted standard for dealers and producers throughout the country.

7. Its aggregate circulation is larger than that of any other four cent morning paper in New York.

8. Its circulation, regarding character as well as number of subscribers, is better than that of any paper in the country.

9. It is growing more vigorously, and increasing in circulation more rapidly than any of its rivals.
